LIFE FOUNDATION OWNED COMPLEX DESIGNATION: ***BOLIVO.***

LOCATED IN THE SOUTHERN ROCKIES NEARLY A MILE UNDER A MOUNTAIN ABOVE.

ISOLATED, SECRETIVE, AND ENTIRELY OFF THE RADAR.

INSIDE IT'S HIGH TECH WALLS MANY EXPERIMENTS ARE CONDUCTED TO FURTHER THE FOUNDATIONS PLANS.

TODAY, ONE SUCH EXPERIMENT IS NEARING IT'S CONCLUSION.

NOW IF YOU'LL PLEASE, MS. GESNERIA.

DISROBE AND ENTER THE CYLINDER SO WE MAY PROCEED.

OK...

PSSSH...

SUBJECTS HEART RATE IS UP CONSIDERABLY,

BUT THAT'S TO BE EXPECTED.

ALIEN'S ACTIVITY HAS ALSO INCREASED,

IT SEEMS TO BE ANTICIPATING HER ABOUT TO BECOME IT'S HOST.

ALIEN HAS BEGUN TO MOVE TOWARDS HOST.

PROCEEDING WITH PROCEDURE.

APERTURE ONE IS OPENED.

ALIEN HAS REACHED APERTURE TWO AND SEEMS VERY WILLING.

OPENING APERTURE TWO ON A MARK OF

3,

2...

...AND 1.

THE ALIEN ORGANISM HAS IMMEDIATELY BEGUN TO SEEK OUR HOST SUBJECT FOR SYMBIOSIS.

PLEASE MAKE A NOTE THAT THERE WAS NO PRODDING OF ANY KIND NEEDED FROM OUR END FOR THIS UNION UNLIKE SOME OF THE PREVIOUS PROCEDURES.

HOST SEEMS TO BE IN UTTER ECSTASY NOW THAT THE SYMBIOSIS HAS COMMENCED.

NOTE THE HAIR BEING TRANSFORMED...

REMARKABLE!

WE ARE AT AROUND 50% UNION ALREADY.

THE ALIEN AND HOST ARE SEEMINGLY WELL MATCHED.

YOUR OBSERVATION SEEMS TO BE CORRECT.

I'M READING A 50% INCREASE ALREADY IN MUSCLE MASS ACROSS MOST OF HER BODY.

IT'S BEEN LESS THEN A MINUTE AND THE ALIEN HAS ALREADY ALMOST COMPLETELY SYNCED ITSELF WITH THE HOST.

FASCINATING.

I HATE TO USE THE OLD CLICHE'S WHILE IN THE LAB,

BUT IF ANYONE WAS MEANT TO HOST THAT ALIEN...

...IT WAS HER.
